RESEARCH ADVISORY COMMITTEE

Ref. No. AB/RAC/2026/04/14

Date- 17.04.2026

MINUTES OF MEETING- 09.04.2026

Research Advisory Committee

1. CALL TO ORDER

Prof. (Dr.) Lajya Devi Goyal (Dean Research) called to order the meeting for discussion at 03:00 PM on 09.04.2026.

- The following members were present in the meeting:-

, Prof. (Dr.) Kamlesh K Sharma, Dr. Soumya Swaroop Sahoo, Dr. Suresh Kumar Goyal, Dr. Mintu Pal, Dr. Apurba Patra

- The following members did not attend the meeting:-

Prof. (Dr.) Lajya Devi Goyal, Prof. (Dr.) Anuradha Raj, Prof. (Dr.) Gitanjali,, Dr. Vaibhav Saini

2. AGENDA

Following PG Thesis were discussed by RAC and sent the subsequent comments:

S. No.	Name of the Candidate	Title of the Study	Comments
1.	Mehivsh Majeed (INER)	Exploring Psychosocial factors Contributing to Opioid Use among Patients. A Qualitative Study at a selected Tertiary Care Hospital, Bathinda Punjab	<ul style="list-style-type: none">Title –Better rephrase as: Exploring Psychosocial Factors Contributing to Opioid Use among Patients diagnosed with Opioid Use Disorder: A Qualitative Study at a Selected Tertiary Care Hospital, Bathinda PunjabShould write the Research Question as this is a qualitative studyUnder data collection tools,<ul style="list-style-type: none">a). mention if tools are self-developed or adopted/adapted

			<ul style="list-style-type: none"> o b) Section B, Number of tentative broad questions should be specified and with what focus
2.	Aastha Singh (INER)	A study on Effect of Screen Time on Development Milestones and Behaviour of Children Visiting Pediatric OPD of a Selected Tertiary Care Hospital, Bathinda	<ul style="list-style-type: none"> • Modify title. • Objectives should be modified. • In the inclusion criteria no. 3 age mentioned by you is 65. It should be corrected or justified. • What is your study duration design. • How do you ensure data saturation mentioned in methodology? • Ensure following guidelines of ICMR in use of Opioid. • In data analysis plan mention your software model. <hr/> <ul style="list-style-type: none"> • Title: Rename the "selected" term. • Introduction: Citation numbers 2-b are missing. Please cite the literature in ascending number order. • Problem statement is same as the title – modify it. • Aim- Missing –please add.. • In the target population mentioned children aged 2-5 years, but in the inclusion/exclusion criteria. You mentioned parents of children – please clarify references: Cite the in the thesis in order then the bibliography. <hr/> <ul style="list-style-type: none"> • Research design should be modified. • In inclusion criteria why parents of children aged 3 to 6 are mentioned? • All the citations should be number where used. • Exclusion criteria no.3 should be removed.

			<ul style="list-style-type: none"> In 'Operational definitions' you mentioned children age 3-6 and in targeted population it is 2-5 kindly clarify.
3.	Okesh Kumar (INER)	Effectiveness of a Nurse-Led Brief Intervention on Motivation Towards Alcohol Cessation Among Patients with Alcohol Use Disorder: A quasi-Experimental Study	<ul style="list-style-type: none"> Should remove the terms: 1st phase/2nd phase etc. This is not a multiphase study design Specify in the study design, what will be the interval b/w the baseline data collection and intervention; and b/w intervention and post test Format of the intervention? Method of intervention delivery, such as lecture/ discussion; By researcher or Trained nurses? One to one or in groups? Permission to use the standardised tools? <hr/> <ul style="list-style-type: none"> Objective no. 1 and 2 should be removed and should be combined in 3rd. There should be an outcome measure in the study. Kindly go through all the references and modify in Vancouver style.
4.	Shashi Bala (INER)	A quasi - experimental study to evaluate an educational program for parents of children with hypospadias in a tertiary - care pediatric surgery department, Aiiims Bathinda.	<ul style="list-style-type: none"> Clearly Define the two interventional groups. Intervention is not structured/ clear. Pilot testing of tool? How will the validity of tool be assessed. Some references (11,8) not in Vancouver style. <hr/> <ul style="list-style-type: none"> Which are the two groups mentioned by you. Allotment criteria should be mentioned. Aim is complicate. Simplify it.

			<ul style="list-style-type: none"> • Why is it a consecutive study? Justify. • Age group should be specified. • If the tools are pre-validated please mention. • Duration of study is not mentioned.
5.	Rachna (INER)	A study to assess the effectiveness of community-based intervention on Knowledge and health-seeking behavior regarding rabies among adults in a selected urban area, Bathinda.	<ul style="list-style-type: none"> • Include study design in title. • In RoL reference numbers are missing. • Modify the sample size calculation so it seems feasible. • You mentioned 20% attrition, kindly justify it. • Intervention is not properly described. • Specify the follow-up period. • Word 'expert' should be replaced with the word 'specialist'.
6.	Pragati Anand (INER)	A study to assess the effectiveness of nurse -led diabetes self-management education on self-care knowledge and self-care behaviour of diabetic of selected urban community , Bathinda.	<ul style="list-style-type: none"> • Primary objective does not match the title of the study. • Why 30 – 60 yrs age group is taken? • Why convenient sampling technique? • Inclusion criteria – Why in future tense. • How will the validity be assessed? diabetes specialists?? Research methodologist. • Who is the clinic authority? • Data analysis plan is not mentioned clearly. • References are not in Vancouver style. • Write student in place of Principal Investigator in IC form. • It the SDSCDA previously tested/ validated in Indian condition? <hr/> <ul style="list-style-type: none"> • Mention the problem statement • Sample size calculation is not cited in the reference list. • Inclusion criteria no. 2 and 3 are same. • Statistical analysis is not clear. Modifications needed.

			<ul style="list-style-type: none"> • How to study the effectiveness of study should be an objective? • Attrition % in study is not mentioned. • You are taking data permission from hospital/clinical authority. Elaborate about the authority.
7.	Nisha (INER)	A descriptive -cross sectional study to assess prevalence and risk factors of Text Neck Syndrome among Nursing and Medical students of selected tertiary care institute of Bathinda, Punjab.	<ul style="list-style-type: none"> • ROL should be numbered • What is the sampling frame for Random sampling? <hr/> <ul style="list-style-type: none"> • Remove the word 'selected' from title and aim. • Mention study duration. • All studies should be cited as per the Vancouver style. • Too many objective only 2 objectives are enough. • Mention your study as screen neck syndrome not text neck syndrome. • Modify your exclusion criteria.
8.	Simran (INER)	Effectiveness of a Nurse-Led Intervention on frailty prevention and Health related Quality of life among urban elderly residents of Bathinda: a Quasi experimental study.	<ul style="list-style-type: none"> • Problem Statement as similar to the title – modify please. • AIM- missing • In ROL citation numbers not provided in few cases. • Validity tool – who will validate. <hr/> <ul style="list-style-type: none"> • Problem statement is same as title. Modify it. It should be research question. • Mention aim of your study. • In research setting: in which community study is conducted. Kindly mention. • Reference should be in ascending order as per Vancouver style.
9.	Usmita Sengupta (INER)	Effectiveness of a Nurse-Led Home based Pulmonary Rehabilitation Programme on Functional Exercise Capacity and Health Related Quality of Life Among Individuals With Post TB Lung Disease in Selected Tertiary Hospital,	<ul style="list-style-type: none"> • Modify title, make it short. • Aim is missing. There should be an aim in the study. • You have taken patients of age group 18-70 kindly justify it. • Is there any outcome measure? • All the reference should be cited as per Vancouver style.

		Bathinda: a Randomised Control Trial.	<ul style="list-style-type: none"> • Sampling should be by Random allocation. • Remove the word 'Selected' from your title. • Mention study design in your title. • Modify aim .You are doing swaddling intervention so what are the independent variables.
10.	Monika (INER)	An interventional study on effect of swaddling on physiological responses, pain level and crying duration during heel prick in preterm neonates admitted in selected tertiary care hospital, Bathinda	<ul style="list-style-type: none"> • Study design- Pre experimental design is incorrect. • Intervention not structured and clearly defined. • What is the intervention for primary caregivers and children? .Is it the same or different. • How validity of the tool will be tested? • Which is nutrition department that is mentioned in your study? • Analysis plan not clearly mentioned. • Pilot testing of tool? • How many times will the 24 hour recall be assessed. • Sample size calculation needs to be reassessed.
11.	Nitesh Rohilla (INER)	Effect of multimedia- based nutritional intervention on knowledge, attitude and practice regarding nutrition among caregivers and change in BMI (Z score) of children with cancer admitted in selected tertiary care hospital, Bathinda.	<ul style="list-style-type: none"> • Title is too long and not clear. • Introduction: Reference number 9-12 not cited in the text. • Problem statement is same as the title: Modify it. • ROL – Reference numbers is not according to Vancouver system. • Methodology- Detailed timeline to be mentioned. <ul style="list-style-type: none"> • Word 'Selected' should be removed from title. • Modify study design. • Citation should be in Vancouver style. • Intervention is not clear it is to be specified at the minute level.

			<ul style="list-style-type: none">• Remove part (iv) of Data Collection Tools.• Which is the nutrition department?
12.	Arshiya (INER)	A Qualitative study to explore the mental health challenges among Lesbain, Gay, Bisexual and Transgender (LGBT) community in selected districts of Punjab.	<ul style="list-style-type: none">• Candidate Absent ✓
