SCIENTIFIC PROGRAM

It is heartening to note that the Department of Pathology at the All India Institute of Medical Sciences, Bathinda is organising one-day Pathology Update and State Round of ISHBT National Haematology Quiz on August 23, 2022. Physical mode of the event adds to the excitement for speakers and the attendees since most academic events during the last over two years have been held in virtual mode. Training and participation of students in brain-storming competitive quiz surely prepares them well for their future career and for quick solutions to real-life professional situations. Besides, the topics chosen for talks and presentations during the CME are interesting and contemporary. I whole heartedly extend my warm wishes to the organisers for the success of the event and excitedly look forward to interact and share my experience with other colleagues that would be mutually gainful.

Dr. Harsh Mohan

MD, FAMS, FUICC, FICPath
Former professor & Head, Pathology Department,
Government Medical College & Hospital, Chandigarh
