

FRONTIERS IN CLINICAL PHYSIOLOGY

20TH SEPTEMBER 2024

- On September 20, 2024, the Department of Physiology at AIIMS Bathinda organized National CME (Continuing Medical Education) on "Frontiers of Clinical Physiology." Where delegates participated from Jodhpur, Jammu, Delhi, Chandigarh, Himachal Pradesh and Punjab The Dean Academic, Dean research, Dean examination and Medical Superintendent graced the occasion with their eminent presence.
- Guest speakers Prof. Dr. Latika Mohan, Prof. Dr. H.N. Mallick, Prof. Dr. Tejinder Singh, Prof. Dr. Mrunal Phatak, and Dr. H. Barun Sharma, highlighted the promising future of Physiology. They highlighted that Clinical Physiology is becoming a pivotal force in advancing modern healthcare. The speakers discussed how the integration of new technologies and research is continuously pushing the boundaries of Clinical Physiology. Special emphasis was placed on fields like Altitude Physiology, Interventional Dynamics, and Neurophysiology. Collaborations between Clinicians and Physiologists are encouraged to broaden the scope of clinical pathways and improve patient care.
- The event also included national level e-poster and oral paper presentations by medicos all over the country, with awards presented to the winners. The CME concluded with a message about the expanding scope of Physiology and its role in professional growth.
