About workshop

Department of Pathology, All India Institute of Medical Sciences, Bathinda is organizing workshop entitled "From Bench to Bedside: Navigating the Precision Medicine Landscape" under ICMR-DHR at All Institute of Medical Sciences, Bathinda. The training in the workshop is designed to increase individual and organizational productivity and to develop opportunities that enhance knowledge, develop skills, and enrich the organization. Training in the techniques of molecular basics pertaining to Breast and Lung carcinoma and their utility will be beneficial in the research for patient care in the form of diagnostic and therapeutic modality and will also benefit the researchers and clinicians for applying practicability in various other diseases.

The workshop will be graced by eminent speakers, resource persons, research scientist and application managers from reputed institutions and organizations.
